

## Pulse Wiring for Nayax - Mr. Pop/Marshmallow Spaceship

Follow the wiring instructions in the photos below.

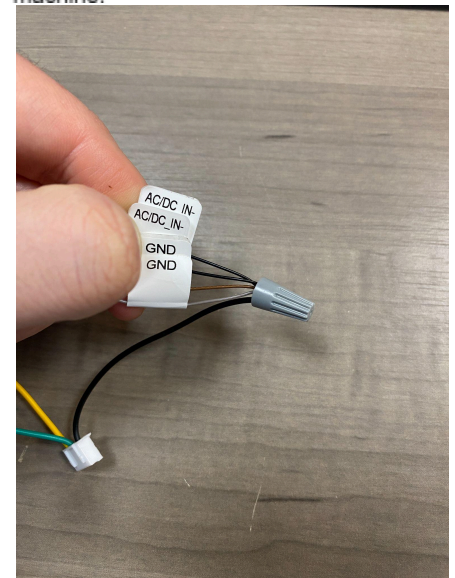

Open machine and cut wires here to combine Nayax Pulse wires.

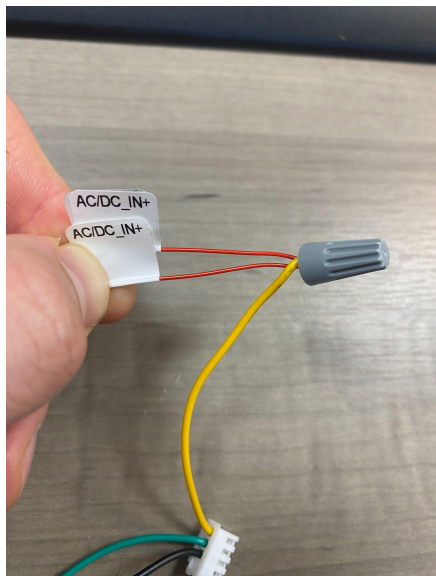

Strip wires back for all wiring connections.

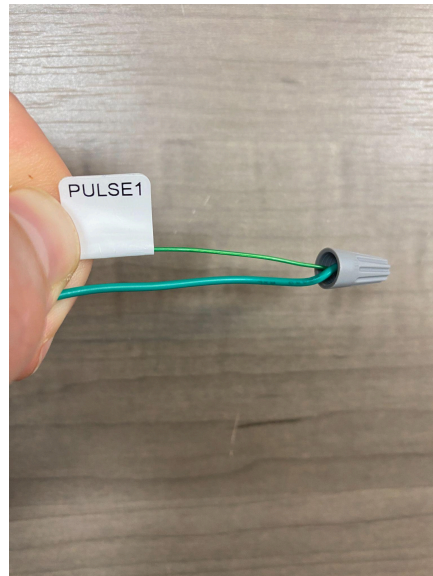

**First Connection:** 2 Grounds wires, 2 AC/DC IN- wires, with Black wire from machine.

**Second Connection:** 2 AC/DC IN+ with Yellow Cable from machine.

**Third Connection:** Pulse 1 wire to Green wire with machine.

\*You can use wire strippers or scissors to strip the cables. Be very careful because they are thin wires. Hold the wires together with electrical tape or wire nuts as shown in the pictures provided above.
